

YOUR MULTI-CHANNEL LOGISTIC PARTNER

The dynamic nature of logistics options, multiple sales channels and high client service expectations can create a large delivery gap for many organizations that attempt to provide their own fulfillment services. This gap is where PMA steps up for our clients with expertise, unique options, improved execution, reduced costs and enhanced management and reporting.

“PMA has been a great partner for our company. Their customer service team is truly dedicated to helping our customers and ensuring the success of my program.”
- Thomas Thompson, Fiesta Brokerage and Marketing.

POSITION YOUR BUSINESS FOR THE FUTURE

PMA believes the future of fulfillment is similar to the evolution of technology infrastructure - a dramatic move to services provided by cloud-based providers to improve performance, gain expertise and reduce costs.

We call this shift “Cloud-Based Fulfillment™” and believe it will provide improved services for our clients. Ask us about our plan to lead this innovation.

“We experienced explosive growth and they not only accommodated our shipping needs, but provided an unsurpassed level of customer service during the process.”
- Niki Vens, Golflogix, Inc.
